TWO THOUSAND

Seen & Heard Around MURRAY

Once again we hear of that spirit in the county that gets things done.

This time it is the folks at Faxon school.

They have wanted an auditorium for some time and they intend to have one.

Mrs. James C. McDanel, the Reporter of the Mother's Club at Faxon told us that the present facilities are so small that the parents can hardly get in to see their children when they appear on various programs.

The Mother's Club intends to do something to alleviate this situation.

You can see that the school does need some space in that department when you check and find 240 students enrolled there.

One teacher alone has 59 students in his room.

Although the Mother's Club doesn't have enough money, they are going ahead with plans to build a 50 x 80 foot block building.

Not only that, but the building will meet the specifications laid down by the State Department of Education.

The club has only a few hundred dollars at the present time, but they plan to raise the rest of the money in some way.

On October 3, the Mother's Club is sponsoring a public auction at the school.

We predict that the Faxon Mother's Club will raise the amount necessary to build this auditorium.

For such a small group to undertake such a large task is worthy of the praise of everyone in the county.

This is also a cue to civic clubs in the area who are looking for projects.

These ladies, about sixteen or twenty of them, can use all the help that anyone can give them.

We didn't ask, but we feel sure that they would be glad to accept almost any amount of money to place on this project.

The project takes on added color when you stop to think that the new auditorium will be here for many years and will serve hundreds of children in the future.

It takes an unselfish few to provide such facilities that will stand after they are gone.

The determination of the Mother's Club to build the auditorium is exemplified by the fact that the project is being started now.

They may not know right now where the money is coming from to finish the project, but they intend to complete it.

Atomic Artillery Battalions Sent To Continent

By CH. CORDDRY, United Press Correspondent

WASHINGTON, Sept. 16. (AP)—More than six European artillery battalions will be sent to the West under American plan. The West an atomic put on the ground as well as in the air, informed military sources said today.

Each battalion will be equipped with six mammoth 280 mm guns of the type tested last May at the Atomic Energy Commission's Nevada Proving Grounds.

The May test indicated to some authorities that the gun's relatively small projectile—11 inches in diameter and about three feet long—packs a wallop equivalent to that of the A-bomb dropped on Hiroshima from a giant B-29 bomber on Aug. 6, 1945. That bomb had an explosive power

MSC Grid Season Opener Is Saturday

Coach Fred Faurst's Murray State College thoroughbreds open the football season, in Cushing stadium here Saturday night, September 19, with the University of Louisville in the first game of the year for both teams.

Faurst has expressed satisfaction with the practice drills of his squad to date. The shift to one-plateau ball has been running smoothly and the Split-T mentor has put together a starting center, backfield and line.

The club has only a few hundred dollars at the present time, but they plan to raise the rest of the money in some way.

Democrats Break Camp As Stevenson States Policy

By JOHN L. CUTLER, United Press Staff Correspondent

CHICAGO, Sept. 16. (UP)—Democrats today broke camp after a rousing two-day rally with a new spirit of party harmony and a major foreign policy proposal by Adlai E. Stevenson to offer to the voters.

The harmony was established during the rally to kick off the 1954 congressional campaign, climaxed by a speech in which Stevenson, the 1952 presidential candidate, urged a new try for world disarmament to spare the horrors of hydrogen-bomb warfare.

Stevenson's position as party leader was buttressed by a vote of the national committee, the Democratic governing body, to put his hand-picked chairman, Stephen A. Mitchell, on a \$25,000-a-year salary amid a flood of warm praise.

Stevenson submitted his plan for another try at world disarmament, along with other foreign policy moves, in a speech Tuesday night reporting on his post-election, six-month tour around the world.

The talk, broadcast and telecast nationally, was billed as "non-partisan," but it offered sharp jabs at the administration on such issues as defense cuts and McCarthyism.

CARRIER 'HORNET' RECOMMISSIONED AT NAVY YARD

HERE IS AN AERIAL VIEW of ceremonies aboard the carrier Hornet as the 10-year-old veteran of the Pacific fleet was recommissioned at the Brooklyn Navy Yard. She is the eighth ship with the name of Hornet to be in active Navy service. The first was a sloop carrying ten nine-pound guns. By contrast, the new vessel has, in the words of Adm. Robert B. Carney, "been completely modernized for the jet age." (International)

28 Die In Crash Of American Air Lines Convair Plane

By JOHN L. CONSIDINE, United Press Staff Correspondent

ALBANY, N.Y., Sept. 16. (AP)—An American Airlines Convair plane en route from Boston to Chicago crashed and burned near the Albany Airport today. State Police said all 28 passengers and crew members were killed.

Airline officials said the plane was attempting to land when it struck a 365-foot high radio tower and plunged to the ground. It narrowly missed a trailer camp on the Albany-Schenectady Road.

The crash occurred near the suburban village of Colonie on the Albany-Schenectady highway. The plane was coming in for a landing on schedule from Boston after making a routine stop at Springfield, Mass.

It circled the airfield in overcast skies for about 15 minutes before starting its landing approach. Witnesses said they heard "two loud backfires." Then the plane struck the tower and plummeted down.

Lester Hanson told the United Press that he was filling an oil truck at his service station nearby when he heard two loud "backfires." Hanson said the plane plunged to earth and burned.

"I ran to the plane and pulled two bodies from the plane," he added. "It got too hot and I had to run."

Hanson said apparently there were no children aboard.

A spokesman for the air line said there was "no apparent engine failure." He said the plane was waiting "in the clear" for a landing.

The Convair is a two-engine plane with a rated capacity of 40 passengers.

"This will be a grand opportunity for students to meet old friends and have a terrific time," the Junior class is anxious for all students and visitors to attend this party.

Rebellion Crushed By Soviet Tanks And Troops Report Says

BERLIN, Sept. 16. (AP)—A mutiny by German police-soldiers against their Russian and German officers was crushed by Russian troops and tanks, the West Berlin "Information Bureau West" said today.

The agency said the mutiny flared at the Pinnow Barracks, near Angermunde in Mecklenburg Province.

One German peoples police lieutenant was killed and "several" police-soldiers wounded when 2,000 of the Soviet Zone police-soldiers rebelled, the bureau said.

The officers barricaded themselves in a barracks building and defended for Soviet reinforcements, it said.

Seven Soviet tanks and an undisclosed number of Russian troops were rushed to the barracks and crushed the revolt, according to the agency.

The "Information Bureau West" is an independent agency which gathers information from refugees and underground sources in the Soviet Zone. It is regarded as reliable.

The Communist Party newspaper, Neues Deutschland, meanwhile, called for a purge of "enemies" who opposed the East German regime in the June riots as they will help to correct the "failures" of Communists and improve their future activities.

It added, however, that Communists who acted as "an enemy of the party" participated in the revolt, must be expelled.

The newspaper disclosed that German Communists have been among the more than 4,000,000 Eastern residents who received the free American food parcels in West Berlin.

VIENNA, Austria (AP)—The Communist bosses of Czechoslovakia today held out promises of more butter and less guns to the people of the Soviet satellite.

Premier Vilam Siroky said the Prague government decided to curtail arms production "in order that we may allocate these investments for light industry."

Pennant Races Not Over By
Any Means Says Lundquist

By CARL LUNDQUIST

United Press Sports Writer

New York, Sept. 16 (UP)—Who

said the pennant races were over?

Don't try to tell that to the In-

dians, White Sox or Red Sox. Or

the Braves, Cardinals or Phillies.

What they do from now on may

not be very exciting, but they'll

have a chance for second place

and that means a lot bigger chunk

of the World Series loot for each

player than if the finish fourth.

Actually there still are 11 places

to be decided in the final stand-

ings. Besides the Dodgers and

Yankees, the only teams which

have clinched their spots from

teams lower in the standing are

the Phillies, who are sure of at

least fourth place, and the Cubs,

who have clinched seventh from

the Pirates in the National, and

Washington which is mathemati-

cally beyond reach of the fast

closing Tigers in fifth place in the

American.

The way the Cubs have been

traveling of late they could over-

take sixth-place Cincinnati and

have an outside chance of landing

in fifth place ahead of the Giants.

Besides the three-way stretch

struggle for second in the Amer-

ican, the last-place Browns could

vacate their lofty position and

move ahead of the Athletics and

they still mathematically are with-

in-reach of the sixth place Tigers

Fifth-place Washington, sure of

that spot, also might overtake

Boston, although the third-place

White Sox are out of Washing-

ton range officially.

The hottest battle still remains

between the Indians and White

Sox for second place. Cleveland

stayed a game ahead of Chicago

Tuesday by beating the Yankees,

1-0, as Bob Lemon won his 20th

game with a seven-hitter against

rookie lefty Steve Kraly. It was

the fifth year in the last six he

had hit the 20-game mark. The

White Sox improved their position

over the fourth-place Red Sox by

topping them 6-0 on Bob Keegan's

three-hitter. That left Boston 5

1-2 games behind with only eight

to play so the chances for the Red

Sox are pretty slim.

The Phillies moved to within

half a game of the third-place

Cardinals by edging Chicago 4-2

and cutting the Cub winning

streak off at 10 games. Robin

Roberts not only won his 22nd

game but hit his first homer of

the year. Hank Sauer and Ralph

Kiner tagged Roberts for homers.

Duke Snider's two-run homer

over Brooklyn's 4-3 triumph over

the Cardinals in the ninth inning

at St. Louis after Stan Musial had

put St. Louis ahead with a homer

in the eighth.

Gus Bell delivered a two-run

single for the key hit in a four-

run rally as Cincinnati tagged New

York 4-3 and moved within two

games of the skidding fifth-place

Giants. Lefty Fred Baczewski

pitched an eight hitter for his 10th

win.

The Velvet Hand

by HELEN REILLY

CHAPTER TWENTY-TWO
WILDER had very effectively blocked his caller off. McKee took the phone and rang the desk. The call, a dial call, had been made from somewhere in Denfield, that was all the girl at the switchboard would tell him. It hadn't been made from the Haven house. McKee gave the number and George Corey answered. Everyone there was in the living-room and had been for the last quarter of an hour. McKee asked: "Who's everyone?" Corey said: "Mr. Harvey Miss Haven, Miss Tallis, Mrs. VanKreef, Mr. Grant and myself."
McKee hung up, and he and Strat went, leaving a badly shaken Wilder behind them. When they were a sufficient distance away from Wilder's door, Strat said: "What did you make of that, McKee? Was that Libby's whispering man who called Wilder?"
Instead of answering directly, McKee said: "Did anything about the voice strike you? I don't mean the whispering part of it. That's easy enough to reproduce. Try it yourself sometime-I mean the tone of the voice."
Strat said: "It seemed, it didn't seem particularly threatening."
McKee nodded. "No it wasn't threatening, it was friendly, kidding."
"Then Wilder's lying. He knows the man who took Libby Tallis," McKee shook his head. "Not necessarily. It needn't have been Libby Tallis's whisperer. But the man who just called Wilder would be very interesting to know how he knows-and who he is."
In the Haven house three miles to the north the evening was at an end. Shortly after McKee's call, George went, and the two girls started for bed. Kit went with Libby to her bedroom, going in first and switching on the lights and turning down the bed. Libby was starting to undress. Her sudden cry jerked Kit around.
"Look, Kit!" Libby was pointing to the dressing table. Kit looked. The missing glove and cleansing tissue had been returned. They were there, the tissue a crumpled ball on top of the glove. They were sprinkled with drops of redness. Sparing them to the dressing table, a knife stood up straight, its point buried in the wood.
At breakfast the next morning, Philip, Kit, Libby, Miriam and William didn't speak much, and when they did it was matter-of-factly. The web was drawing in tighter, many silky threads wrapping each one of them in a clinging gauze, hiding them from each other under the manipulating touch of a velvet hand. It was Hugo's phrase. It stuck in Kit's mind.
The immediate aftermath of the tissue, the glove-and the knife-had resolved nothing. The knife had been a mercurochrome. "There was none in the house. The work could have been done in advance or it there had been a bottle in one of the medicine chests, it had been disposed of."

And he was in Fredrick's room. It was possible that he had found Anita as a tool? In plain words, could he have made Anita steal the tissue and the glove, and later put them back in Libby's room as a ghastly and final warning?
The ranch house was empty. The front door was locked, the windows were down, and no toys littered the lawn or the sand-box. Kit went around to the kitchen ell. The back door was locked, too, and Anita's car was gone. There were three freshly washed milk bottles outside the back door. A note protruded from one of the bottles. It said, "No milk until further notice."
Kit was dumfounded. As she started for the driveway, a shadow crossed her field of vision obliquely; she was level with the front of the house. It was the inspector. He was on the doorstep and began using the knocker vigorously. McKee saw Kit. He didn't pay any attention to her. He was staring at the grass where one of Bobby's locomotives lay forgotten. McKee picked it up, looked at it, let it fall and pushed through low jumpers to the dining room window. Glass smashed and the inspector's arm went in, and the window slid back. He went over the sill fast and out of sight.
Kit waited, holding her breath. "Miss Haven-" It was the inspector's voice calling her. Kit went inside the house, going the same way McKee had gone. Guided by his call, she ran through the living-room and on into the bedroom beyond.
Anita was lying on top of the bed wrapped in a green negligee. Her tweed suit was over a chair. On the table beside her there was an empty glass and a bottle of red capsules. There were only a few of the capsules left in the bottle. Anita's eyes were closed. McKee was bending over her. He put his hands under her shoulders and pulled her into a sitting position. As her body came upright her legs trailed and her head fell back.
"Get a doctor," McKee called. "Emergency," she said into the receiver and got Dr. Terry just as he was coming in for lunch. He said he'd be right over. Kit went back to the bedroom.
McKee was supporting Anita, trying to get her to stand up. She wouldn't or couldn't. Her head was against the inspector's arm. Her eyes were half open and she looked young and innocent-like a child. She was talking in a drowsy voice. "It was the muley. There will be enough now. . . . Bobby will have it. . . . Suddenly she yawned widely and her eyes closed and her whole body slumped.
McKee gave Kit quick orders: the kitchen, an emetic, mustard and water would do. Kit mixed the nauseous stuff and they got some of it down Anita's throat. Then Terry came rushing in and McKee told Kit to go into the garage and wait there.

Pennant Races Not Over By Any Means Says Lundquist

By CARL LUNDQUIST
United Press Sports Writer

New York, Sept. 16 (UP)—Who
said the pennant races were over?
Don't try to tell that to the In-
dians, White Sox, Red Sox, or
the Braves, Cardinals or Phillies.
What they do from now on may
not be very exciting, but they all
have a chance for second place
and that means a lot bigger chunk
of the World Series loot for each
player than if the finish fourth.
Actually there still are 11 places
to be decided in the final stand-
ings. Besides the Dodgers and
Yankees, the only teams which
have clinched their spots from
teams lower in the standing are
the Phillies, who are sure of at
least fourth place, and the Cubs,
who have clinched seventh from
the Pirates in the National, and
Washington, which is mathemati-
cally beyond reach of the fast
closing Tigers in fifth place in the
American.

The way the Cubs have been
traveling of late they could over-
take sixth-place Cincinnati and
have an outside chance of landing
in fifth place ahead of the Giants.
Besides the three-way stretch
struggle for second in the Ameri-
can, the last-place Browns could
vacate their lowly premises and

Fifth-place Washington, sure of

Tuesday by beating the Yankees.
White Sox are out of Washing-

The Phillies moved to within
half a game of the third-place
Cardinals by edging Chicago 4-2
and cutting the Cub winning
streak off at 10 games. Robin

game but hit his first homer of
the year. Hank Sauer and Ralph

Duke Snider's two-run homer
gave Brooklyn a 4-3 triumph over
the Cardinals in the ninth inning
at St. Louis after Stan Musial had

single for the key hit in a four-
run rally as Cincinnati topped New

games of the skidding eighth-place
Giants. Lefty Fred Barzowski
pitched an eight hitter for his 10th
win.

The Pittsburgh Pirates rallied
for three runs in the eighth inning
to beat Milwaukee, 7-5.

Plymouth Hy-Drive

Newest, smoothest, least expensive
no-shift driving in low-price field

Thousands of motorists today are enjoying
the spectacular performance of Plymouth Hy-Drive

It's Smooth

—one flowing motion!
No noises, jerks or lurches
in going from one speed to
another. Your car can't
up-shift or down-shift on you
unexpectedly.

It's Powerful

—for a fast, positive getaway.
There's no racing of the
engine to get started, no
"winding up."

It's Versatile

—holds your car without
using the brakes while halting
on a hill. You get good
engine braking going downhill.
You can use the clutch for
more exact control in "rocking"
out of mud or snow.

It's Economical

—both in original cost
and in upkeep. There's no
complicated mechanism to
get out of order or to adjust
and maintain.

"It saves me around 2 gallons of gas each day,"
says this rural mail carrier

"Vic" Hammer is a rural mail carrier out of Appleton, Wisconsin. He drives the same route every day. He has 400 boxes, which means lots of starting and stopping. He used to use between 5 and 6 gallons each day.

Recently, Mr. Hammer purchased a new 1953 Plymouth equipped with Hy-Drive. He is now using between 3½ and 4 gallons of gas a day on his route.

"I think this is an amazing performance," Mr. Hammer says. "I'm saving around 2 gallons of gas for the route each day. And it's 100 per cent easier serving the route now that I no longer have to shift gears."

*Hy-Drive is available on all new Plymouths at low extra cost
